

Comprehensive & Convenient

Continental Fabrication Services (CFS) specializes in pipe fabrication for oil, natural gas and products pipeline construction. CFS is conveniently located in north-central Missouri. On-site painting and hydrotesting capabilities eliminate our customer's need for permits, access to and disposal of water and blast media, and overspray from painting.

- ISO 9001:2015 certified
- Proprietary lab-tested API 1104 and ASME welding procedures for GMAW, FCAW, SAW, and SMAW processes
- NACE certified and manufacturer approved coating personnel
- In-house CWI, PE and QA/QC Auditor
- 50 Acres of laydown yard
- Expandable flatbed and step-deck trailers for delivery
- Work experience with major pipeline operators and facility contractors

Custom fabrication solutions for takeoff and layout, welding, 3rd party NDT, hydrotesting, painting and coating with extensive experience regarding:

- Pump Stations
- Compressor Stations
- Meter & Regulator Stations
- Tank Farm Manifolds
- Launchers / Receivers
- Mainline Valve Settings
