

The  
*Essence*  
of  
*Style*

**ANDERSON BROS. & JOHNSON**

## A Touch of *Elegance*

Among the commercially available solid surfaces, nothing brings more substance to a space than a piece made of Anderson & Bros. Johnson granite.

Its incredible design flexibility allows it to be crafted to fit any design style and configuration; its durability is unequalled by any man-made material; it is easy to clean and is an excellent long-term value.

AB&J quarries three outstanding granite colors - Wausau Red, Wisconsin Silver Grey, Sierra Rose, as well as a beautiful luminous quartzite known as Wisconsin Lavender Grey - each bring a touch of timeless elegance to any residential or commercial project.

## *Red* is the "New Black"

AB&J's Wausau Red granite is one of the hardest yet most attractive granites in the world. Its unique characteristics helped earn its designation as the Official State Stone of Wisconsin.

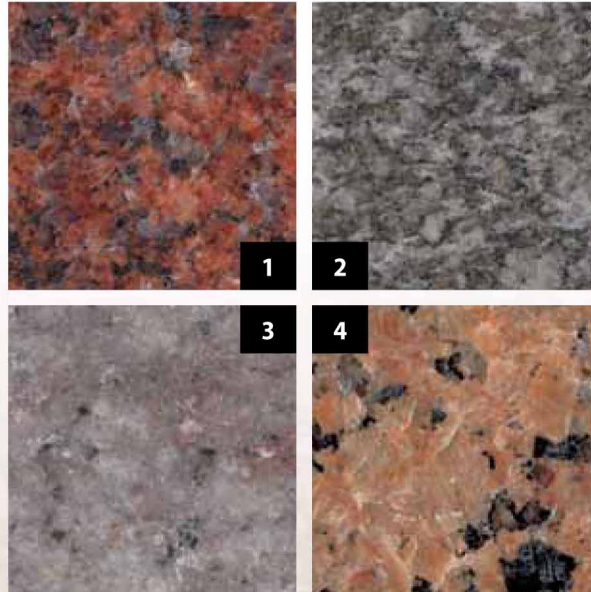

Ideal for countertops, backsplashes, island tops, furniture, walls and flooring, Wausau Red is one of the most breathtaking hues of nature which will warm any décor.

If you are looking for a material that captures the imagination and triggers the inspiration, think Red. Think Wausau Red.

# Make a *Statement*

AB&J's Wausau Red, Wisconsin Silver Grey and Sierra Rose granites display superb consistency – in grain and in color – whereas Lavender Grey displays lovely veining as found in marble. Each slab is therefore different and unique, which transforms your design into an exclusive work of art.

1. Wausau Red 2. Wisconsin Silver Grey  
3. Lavender Grey 4. Sierra Rose

Due to printing limitations, the colors represented here may vary slightly from the actual product.  
For best results, we recommend viewing samples under normal lighting conditions.

AB&J stones are quarried in the heartland of America with the utmost care and respect for the environment. They are easily recyclable, readily available and require very little domestic transportation. This makes them a natural choice for LEED project designers and for environmentally conscious owners.
